DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-10 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 6,032,562 in view of Brickner et al, 5,235,889. '562 does not claim a base, the table rotatably disposed on the base about a substantially vertical axis, or the working tool being movable about a substantially horizontal axis between a first position and a lower second position. '889, in a device for performing working operations on a workpiece, teaches providing a table rotatably disposed on a base about a substantially vertical axis, and a working tool being movable about a substantially horizontal axis between a first position and a lower second position, please see for example figure 3 and its description. It would have been obvious to one of ordinary skill to have provided '562 with the base of '889, figure 3, to safely support the tool; a table that rotates, to properly position the workpiece relative to the working tool to cut at an angle, and a working tool

positioned between first and lower second positions to properly contact and cut through a workpiece.

3. Claims 1-4 and 7-10 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 9-19 of U.S. Patent No. 5,870,938 in view of Brickner et al, 5,235,889. '938 does not claim a base, the table rotatably disposed on the base about a substantially vertical axis, or the working tool being movable about a substantially horizontal axis between a first position and a lower second position. '889, in a device for performing working operations on a workpiece, teaches providing a table rotatably disposed on a base about a substantially vertical axis, and a working tool being movable about a substantially horizontal axis between a first position and a lower second position, please see for example figure 3 and its description. It would have been obvious to one of ordinary skill to have provided '938 with the base of '889, figure 3, to safely support the tool; a table that rotates, to properly position the workpiece relative to the working tool to cut at an angle, and a working tool positioned between first and lower second positions to properly contact and cut through a workpiece.

Response to Arguments

4. Applicant's arguments with respect to claims 1-10 have been considered but are moot in view of the new ground(s) of rejection. Applicant's amendment has overcome the statutory double patent rejection under 35 USC 101.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

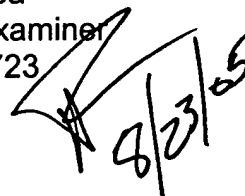

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
